1897-98 INTRODUCTION.

180653

CASS COUNTY, ILL.  
HISTORICAL SOCIETY

<sup>copy 2</sup>  
The fourth volume of our Logansport and Cass County Directory is here presented with the belief that it is complete and accurate. Careful and competent assistants have aided in its compilation, and every effort has been made and expense incurred to insure correctness and perfection in all respects.

An impression seems to exist that in order to issue a directory all that is necessary is to send out men, get some names, arrange and print them, write a preface and deliver the books to the subscribers. As a matter of fact, such is not the case; names are taken in duplicate and the facts are proven as are accounts in a double entry system of bookkeeping. The hardest labor, most careful workmanship, and heaviest expense are required in perfecting discrepancies and omissions which are discovered by the duplicate system. A complete directory is never the result of a single canvass, and is only arrived at by a liberal expenditure of both time and money, utilizing every year the information obtained in previous issues. Directory publishing is a vocation peculiar to itself, and can be carried on properly only by those educated in and thoroughly conversant with its numerous details, which require years of training.

Notwithstanding the general business depression throughout the country, Logansport continues to show a healthy increase in population and business interests, which is gratifying to every citizen. In respect to healthfulness, comfortable or even luxurious living, business opportunities, educational advantages and social and religious associations it is not excelled, and the citizens have reason to be proud of the city that has grown up, as may be truthfully claimed, without booming.

#### POPULATION.

As a basis on which to figure population we desire to say that some directory publishers use the multiple 3 to each name. This we have always contended is too high, and consequently we use, and have always used, the multiple 2 $\frac{1}{2}$ . This volume contains 9525 names; deducting 10 per cent (952) for duplicate names of business firms, we have 8573 names (above the age of 15 years and not including wives), and by using the multiple 2 $\frac{1}{2}$  we show a population for Logansport and suburbs of 21,433.

In conclusion, we desire to thank our many patrons for the support they have given us, and trust that the result of our efforts will meet with their approval and appreciation.

Very respectfully,

LONGWELL & CUMMINGS.

# DON'T LEND YOUR DIRECTORY

---

AN APPEAL TO OUR SUBSCRIBERS:

We would offer a suggestion to those who, from business necessities, or actuated simply by a public spirit, have favored us with an order for a book:

## DON'T LEND YOUR DIRECTORY.

We receive many complaints from our patrons to the effect that they are bothered so much by borrowers. Borrowers, generally, are chronically such. The man who borrows a Directory never buys one, never subscribes for it (or for anything else). These same individuals, when asked to subscribe, "don't need it," "never have any use for it," "know everybody." Yet the virgin freshness of its leaves has hardly been sullied by human touch before this *nuisance* wants to borrow your Directory. Again we ask,

## DON'T LEND YOUR DIRECTORY.

You may not get it back. A man who is not honest with himself cannot be honest with others. The business man who asks to borrow your Directory told our solicitor he "didn't need one." Take him at his word.

TO THE INTELLIGENT,  
PURCHASER OF PRINT-  
ED MATTER, UPON,  
WHOM MAY FORTUNE  
SMILE, THESE:

WOULDST thou, O, gentle reader, make thine effort succeed, whether it be to advertise thy wares, to publish an announcement, or to get the uttermost benefit in any branch of the erstwhile mystery of imprinting? Then hark ye! here is a word for thine ear upon which it behooveth thee to ponder well in the secret places of thine understanding. *Listen:*

When thou hast printing to be done get good printing.

When books first began to multiply with mysterious frequency, the people ascribed the new writing, which we now know as imprinting, to the handiwork of the devil; and even in this day and generation there are some printers who must be agents of His Satanic Majesty, for how otherwise are they enabled to glut the market with printing, even of the cheap-and-nasty-kind, at less than the cost of production, unless they steal the paper, and produce the types from the hell box of their more scrupulous fellows?

Opposed to this interpretation of the printer's art (alas! too often to be better described as blacksmith's botch work) is that of the master printer who tries; who provides himself with the latest implements of his craft; who studies the works of the old masters of the art; and who charges accordingly.

Avail thyself of this; for even if his charge be many ducats in advance of that of his fellow-craftsman, it will put broad pieces of gold in thy pouch by attracting the reader's attention to thy statement and insensibly forming his opinion that thy house is perforce as good as thy printed matter.

Let not the cost deter thee; for should the good printer's charge be double that of the cheaper craftsman, the wage of the postman remains the same; the other fixed charges are still fixed; and what seemeth to be an increase of an hundred fold in cost is found to be but a tithe.

For instance, let us suppose thou desirest to sow the good grain of thy advertisement broadcast throughout the land. To accomplish thy fell purpose thou must perforce be at these costs for each thousand disseminated, be they broad-sides, or bulls, or indulgences, to-wit:

Envelopes, say two ducats; inscribing same, one ducat; carriage (in fees to the courier with the gray liver) twenty ducats; folding, inserting and sealing, one ducat; total fixed charge, twenty-four golden ducats. This total must be expended whether or no, and to it must be added the fee for imprinting, which it be but two ducats, the price desired by many short-sighted wights who pose as patrons of the liberal arts, will fix the grand total at six-and-twenty ducats. Now, if peradventure the printer persuadeth thee to expend double the amount allotted for his product, the actual cost is not doubled, but is increased less than eight per centum, while the element of effect is doubled or trebled.

Avail thyself of all that lyeth in the art; and let us be thy servants in the matter.

LONGWELL & CUMMINGS, to be found in the new Masonic Temple, in the Fourth and North streets, in the city of Logansport, Indiana.

#### LADIES AUXILIARIES

##### *The Grand International Auxiliary to the Brotherhood of Locomotive Engineers*

The Grand International Auxiliary to the Brotherhood of Locomotive Engineers was organized at Chicago, Illinois, October 2, 1887 The present grand officers of this Association are as follows: Mrs W A Murdock, grand president, Chicago, Illinois; Mary E Cassell, grand vice-president, Columbus, Ohio; Mrs Harry St Clair, grand secretary, Logansport, Indiana; Mrs M L Robertson, grand treasurer, Toledo, Ohio; Mrs F S Bowley, grand chaplain, San Francisco, California; Mrs Byron Baker, grand guide, Ottawa, Ontario, Canada; Mrs R B Adams, grand sentinel, Roanoke, Va; Mrs C Durnell, president of insurance, Fort Wayne, Indiana; Mrs M C Orr, secretary and treasurer of insurance, Peoria, Illinois. The sub-divisions of this

order now number 228, and extend to almost all railroad centers in the United States and Canada. All supplies for organizing and carrying on this work are furnished by the Grand Secretary, Mrs Harry St Clair, of this city, who also receives all moneys paid into the grand division by the sub-divisions. To elevate the social standing of the families of the members of the B of L E, to assist them in time of sickness or trouble, and to insure them against want in case of death, were the paramount objects of the founders of this society. The principles that are inculcated as the basis of its fundamental character are Fidelity, Love, Charity, Harmony and Protection.

Local Lodge Charity Division No 4, G I A to the B of L E—Meets second and fourth Thursdays of each month, n e cor 6th and Broadway Mrs John Truman, pres; Mrs Pierce Richardson, vice-pres; Mrs Harry St Clair, secy; Mrs M E Cooper, treas; Mrs B V Pitman, ins agt

## STREET AND AVENUE GUIDE

### THE NOTATION OF LOCATIONS

Logansport is numbered on the Philadelphia plan, which is the most approved of modern conveniences for the notation of locations Each block, by this system, constitutes a hundred numbers; even numbers will be found on the north and east side of the streets, odd numbers on the south and west side; thus the s e cor 4th and Market would be numbered 401 and the doors going east 403, 405, etc, until

the intersection of 5th street be reached, then in like manner from the east side of 5th street, the numbers would be 501, 503, 505, etc; to 6th street By this means, with any given number, we can tell just how many blocks that number can be found from the initial of enumeration

First street is the basis of numbering from west to east between the rivers High street is the basis of numbering from north to south between the rivers Eel river is the basis of numbering from south to north on the North Side North Sixth, the continuation of Sixth north of Eel River, is the basis of numbering on the North Side, east to corporation line and west to Brown

Brown is basis of numbering on the West Side

Front is the basis of numbering from south to north on the West Side until Brown is reached, when the numbers begin at Wabash River

The Wabash River is the basis of numbering from north to south on the South-side

*A*—from Market south to Helm 1 w Wilkinson

*Anthony*—from Wabash River south to Burlington road 1 w Burlington av

*Ash*—from Water north 1 w Sycamore

*Aster*—from Water south to Eel River R R 1 e Garden

IT is with no small degree of pride—properly seasoned with a becoming sense of modesty—that the undersigned submit this circular to the public, calling attention to our removal to new and stately quarters. ✽ An exterior cut, herewith shown, of the new Masonic Temple, will convey to those personally unacquainted with this noble structure, an excellent idea of the location of our new office. ✽ A brief description of the arrangement of the quarters we occupy therein need not be deemed amiss. ✽ We have the entire basement floor, with the exception of a small room occupied as the office of the township trustee, possessing in all a floor space of more than 4,000 square feet. In comparison with our late inadequate and greatly cramped quarters, this is an enormous advantage, and one which we dare to believe will be appreciated by the public whose interests in the printing way we desire to constantly serve. This new location gives us the finest counting room, the neatest private office, the best lighted and airiest composing room, the solidest floor for presses and engine, a large fire-proof vault, well-arranged binding facilities, and the most convenient stock-room of any printing house in the state. The entire basement has been remodeled and constructed especially for us, from plans securing the largest measure of convenience in every department, and we boast, modestly, the possession of a printing establishment which will prove in full keeping with the metropolitan advancement of the city whose people boast so prideful a building as the one to which we point you in this circular. ✽ By this change, and by the addition of facilities which we were utterly unable to employ in our formerly restricted location, we are now in a position to do a class of work heretofore unsolicited, and to furnish supplies which we were before unable to handle or to display. ✽ In this connection we will make a specialty of blank book work, all kinds of county and bank supplies, book printing, and a variety of work which has heretofore been done only at a disadvantage. ✽ In society and commercial printing we will now be better equipped than ever to maintain the gratifying supremacy which we have enjoyed in that line. ✽ All the advantages which we now possess will be equally shared by our customers, and it is with a great deal of pleasure that we invite you to call and inspect our facilities for insuring satisfactory service in any branch of the art preservative in which you may happen to be interested either immediately or prospectively. ✽ We confidently trust to prove our ability to interest you. With a concluding assurance of our most sincere thanks for the countless favors extended by a liberal public in the past, and acknowledging our recognition of the deep and lasting obligations under which we rest in relation to that public, we beg to remain, as ever,

Your Most Humble Printermen,

LONGWELL & CUMMINGS.

THE  
**STANDARD**  
 OF  
**EXCELLENCE**  
 IN  
**FOUNTAIN PENS**  
 IS THE  
**WATERMAN IDEAL**

A RELIABLE fountain pen is now regarded everywhere by progressive people as the most practical and convenient writing instrument—a grateful relief from the drudgery of “dip” pens and untidy inkstands. The very best fountain pen is “Waterman’s Ideal.”

It consists of:

A gold pen, the best that can be made.

A hard rubber holder of the best shape and the finest finish, containing an ink reservoir; and

A Feed that conducts the ink from the reservoir to the pen point with absolute uniformity and certainty.

The best writing tool known, the common pen, has, as its distinctive feature, “the split” between the nibs, without which it will not write.

The special feature of the feeding device in the “Ideal” is its splits, which draw the ink from the reservoir to the pen with the same reliability that the split of the pen draws the ink to the paper, and both respond to the act of writing with automatic regularity.

Where numbers appear before the second street in the location place of business or residence, it has reference to the number of doors from the corner. Thus: ss Market, 2 w 3d, means south side of Market 2 doors west of 3d.

Where a woman's name appears after a man's, in brackets, it means she is the man's wife.

## JOHN G. BEATTY

HOUSE AND SIGN  
PAINTER

PAPER HANGER AND DECORATOR

Glazing and Kalsomining

Twenty-five years' experience.

The following are a few of the many public and private buildings that I have finished in this city:

- New Masonic Temple..... 1896
- New High School, 7th and Brodway 1894
- First Presbyterian Church..... 1893
- Court House..... 1887-88
- Dr. J. B. Shultz's handsome residence..... 1896
- Jos. Taylor's Sons' new residence..... 1895
- E. T. Parker's fine residence..... 1894
- Taber's Block, Culver Military Academy (Lake Maxinkuckee), and hundreds of other good buildings in this city.
